- ☐ True
- ☐ False

Explain the difference between 'organic' and 'paid' search results and their respective roles in a comprehensive digital marketing strategy.

ANSWER KEY

SEO Knowledge Assessment

1

B) To improve a website's ranking in search engine results pages (SERPs).

SEO focuses on increasing a website's visibility in organic search results, leading to more traffic.

2

false

Keyword research is crucial for understanding what terms users are searching for and optimizing content accordingly.

3

B) Meta descriptions.

Meta descriptions provide a brief summary of the page's content and can influence click-through rates.

4

B) Acquiring hyperlinks from other websites to your own.

Link building is the process of getting other websites to link to your website. These links act as 'votes of confidence' for search engines.

5

false

Mobile-friendliness is a crucial ranking factor, as many users access the internet via mobile devices. Search engines prioritize websites that offer a good mobile experience.

6

A) Click-Through Rate

CTR (Click-Through Rate) measures the percentage of people who click on a link after seeing it in search results.

7

C) Creating high-quality content

Creating high-quality content is a white hat SEO technique, while keyword stuffing, cloaking, and buying backlinks are considered black hat and can lead to penalties.

8

false

Website loading speed is a ranking factor. Faster websites provide a better user experience and are favored by search engines.

9

B) To provide a description of the image for search engines and screen readers.

Alt text helps search engines understand the content of images and improves accessibility for users with visual impairments.

10

false

SEO is an ongoing process. Search engine algorithms change frequently, and websites need to be continuously optimized to maintain and improve their rankings.

BONUS ANSWER:

Organic search results are unpaid listings determined by search engine algorithms based on relevance and quality. Paid search results are advertisements that companies pay to display
