"Healthy eating is a way of life, so it's important to establish routines that are simple, realistically, and ultimately sustainable."

# Tips for Success

1. Start small: Don't try to plan every meal perfectly at first. Focus on one or two meals a day.
2. Be realistic: Plan meals you actually enjoy and have time to prepare.
3. Repurpose ingredients: Look for meals that use similar ingredients to minimize waste and save money.
4. Batch cook: Prepare larger portions of ingredients or meals on the weekend to save time during the week.
5. Review and adjust: Regularly evaluate your meal plan and make changes as needed to suit your needs.
